What do we do?

Awareness Program for

- Children(30 mins)

- Workshops

Why are we doing this?

There is an alarming rise in the child sex abuse happening in our society. We as parents and professionals are committed to the cause. We have come forward as we understand that just getting scared or worried, and being anxious or indulging in endless discussions about this matter, won't take us anywhere. Statistics have been given by the media, and all of us are aware about it. We also know that any statistics may be just the tip of an iceberg. We as a society haven't yet seen any strict effective measures being taken, to address the menace called child sex abuse. Click here to know more.
